Articles

A

Accuracy of thermodilution measurement of cardiac output in low flows applicable to feline and small canine patients, by D.H. Dyson, W.N. McDonell and J.A. Horne 425

Activated partial thromboplastin time of diluted plasma: Variability due to the method of fibrin detection, by I.B. Johnstone 198

Antibody-dependent and spontaneous cell-mediated cytotoxicity against transmissible gastroenteritis virus infected cells by lymphocytes from sows, fetuses and neonatal piglets, by A. Cepica and J.B. Derbyshire 258

Antibody to *equi* factor(s) in the diagnosis of *Corynebacterium equi* pneumonia of foals, by J.F. Prescott, R. Coshan-Gauthier and L. Barksdale 370

Anticytotoxin activity of bovine sera and body fluids against *Pasteurella haemolytica* A1 cytotoxin, by H.J. Cho, J.G. Bohac, W.D.G. Yates and H. Bielefeldt-Ohmann 151

Antimicrobial susceptibility of 51 strains of *Haemophilus pleuropneumoniae*, by K.A. Gilbride and S. Rosendal 47

C

Canine malignant hyperthermia susceptibility: Erythrocytic defects — osmotic fragility, glucose-6-phosphate dehydrogenase deficiency and abnormal Ca^{2+} homeostasis, by P.J. O'Brien, G.W. Forsyth, D.W. Olexson, H.S. Thatte and P.B. Addis 381

Characterization of *Pasteurella multocida* isolated from rabbits in Canada, by D.H. Percy, J.F. Prescott and J.L. Bhasin 162

Characterization of strains of *Corynebacterium bovis*, by B.W. Brooks and D.A. Barnum 230

Comparison of a modified counterimmunoelectrophoresis test and a micro-immunodiffusion test for detection of pseudorabies virus antibodies in porcine sera, by P.P. Williams, M.F. Coria, E.C. Pirtle and G.A. Erickson 92

Comparison of selenium levels and glutathione peroxidase activity in bovine whole blood, by L.D. Koller, P.J. South, J.H. Exon, G.A. Whitebeck and J. Maas 431

Comparison of some storage and isolation methods to recover bluetongue virus from bovine blood, by F.C. Thomas 108

Comparative study of bovine rotavirus isolates by plaque assay, by D. Archambault, R.S. Roy, S. Dea and M.A.S.Y. Elazhary 286

Congenital hyperostosis in piglets: A consequence of a disorganization of the perichondrial ossification groove of Ranvier, by B. Doizé and G.P. Martineau 414

D

Detection of canine autoantibodies to thyroid antigens by enzyme-linked immunosorbent assay, hemagglutination and indirect immunofluorescence, by D.M. Haines, P.M. Lording and W.J. Penhale 262

Development of an immunoelectroosmophoresis test for the detection and typing of antibodies of vesicular stomatitis viruses, by C.R. Wilks, E.W. Jenney and J.A. House 179

Diagnostic significance of a positive direct antiglobulin test in anemic cats, by J.K. Dunn, G.P. Searcy and V.M. Hirsch 349

E

Ectopic mineralization and nutritional hyperparathyroidism in boars, by F. Gilka and E.A. Sugden 102

Effect of adoptive transfer of mononuclear leukocytes from an adult donor on spontaenous cell-mediated cytotoxicity and resistance to transmissible gastroenteritis in neonatal piglets, by A. Cepica and J.B. Derbyshire 360

Effect of antibiotics against bovine mycoplasmas and ureaplasmas, by R.B. Truscott and H.L. Ruhnke 171

Effect of assembly and transit stressors on plasma fibrinogen concentration of beef calves, by W.A. Phillips 35

Effects of gonadotrophin releasing hormone on reproductive performance of dairy cows with retained placenta, by K.E. Leslie, P.A. Doig, W.T.K. Bosu, R.A. Curtis and S.W. Martin 354

Effect of heat-stable enterotoxin of *Escherichia coli* and theophylline on ion transport in porcine small intestine, by R.A. Argenzio, J. Liacos, H.M. Berschneider, S.C. Whipp and D.C. Robertson 14

Effect of pH, temperature and media on acid and alkaline phosphatase activity in "clinical" and "nonclinical" isolates of *Bordetella bronchiseptica*, by D.M. Mobley, M.M. Chengappa, W.L. Kadel and J.G. Stuart 175

Effect of pseudorabies (Aujeszky's) virus infection on young mature boars and boar fertility, by L.B. Hall, Jr., J.P. Kluge, L.E. Evans and H.T. Hill 192

Effect of racetrack design on gait symmetry of the pacer, by W.H. Crawford and D.H. Leach 374

Effect of separating bull semen into X and Y chromosome-bearing fractions on the sex ratio of resulting embryos, by W.C. Hagele, W.C.D. Hare, E.L. Singh, J.L. Grylls and D.A. Abt 294

Effect of subclinical levels of T-2 toxin on the bovine cellular immune system, by D.D. Mann, G.M. Buening, G.D. Osweiler and B.S. Hook 308

Effects of thyroid status on renal calcium and magnesium handling, by C. McCaffrey and G.A. Quamme 51

Enhancement of *Leptospira hardjo* agglutination titers in sheep and goat serum by heat inactivation, by K. Malkin 208

Enhancement of urethan-induced adenoma formation in Swiss mice exposed to methylmercury, by B.R. Blakley 299

Environmental survival of *Haemophilus somnus* and influence of secretions and excretions, by K.J. Dewey and P.B. Little 23

Enzyme-linked immunosorbent assay for the detection of *Clostridium perfringens* enterotoxin antibody, by L. Niilo and H.H. Cho 111

Epidemiological survey of *Corynebacterium equi* infections on five Ontario horse farms, by J.F. Prescott, M. Travers and J.A. Yager-Johnson 10

Evaluation of criteria for the postmortem diagnosis of mycoplasmal pneumonia of swine, by C.H. Armstrong, A.B. Scheidt, H.L. Thacker, L.J. Runnels and M.J. Freeman 278

Evaluation of ivermectin against later fourth stage *Strongylus vulgaris* in ponies at two and five weeks after treatment, by J.O.D. Slocombe and B.M. McCraw 343

Evaluation of latex agglutination tests for establishing coagulase status of staphylococci from milk, by D.E. Jasper, F. Infante Martinez and J.D. Dellinger 223

Experimental colonization of the bovine teat duct with *Corynebacterium bovis* and the effect on milk somatic cell counts, by B.W. Brooks and D.A. Barnum 141

Experimental rabies in skunks: Effects of immunosuppression induced by cyclophosphamide, by K.M. Charlton, G.A. Casey and J.B. Campbell 72

Experimental *Salmonella*-associated conjunctivitis in cats, by J.G. Fox, C.M. Beaucage, J.C. Murphy and S.M. Niemi 87

F

Factors affecting the infectivity of lymphocytes from cattle with bovine leukosis virus, by B.A. Buxton and R.D. Schultz 365

Fatal mastitis of dairy cows: A retrospective study, by M.J. Hazlett, P.B. Little, M.G. Maxie and D.A. Barnum 125

Fibrosarcoma affecting the mammary gland of a cow, by J.P. Orr 219

G

Goat serums for fluorescent antibody conjugates to chlamydial antigens, by J. Tessler 228

Growth of several strains of *Chlamydia psittaci* in Vero and McCoy cells in the presence of cytochalasin and cortisone, by J. Tessler 290

H

Hematology and biochemistry reference values for Ontario swine, by R.M. Friendship, J.H. Lumsden, I. McMillan and M.R. Wilson 390

Histological and ultrastructural evaluation of cardiac lesions in idiopathic cardiomyopathy in dogs, by G.E. Sandusky Jr., C.C. Caper and K.M. Kerr 81

Hyperbilirubinemia in sick cattle, by B.J. McSherry, J.H. Lumsden, V.E. Valli and J.D. Baird 237

Hypoglycemia: A factor associated with low survival rate of neonatal piglets infected with transmissible gastroenteritis virus, by R. Drolet, M. Morin and M. Fontaine 282

I

Immune response of sows and their offspring to pseudorabies virus: Serum neutralization response to vaccination and field virus challenge, by J.C. Wright, D.G. Thawley and R.F. Solorzano 184

Immunoglobulin G_1F_c in colostral whey, by K. Nielsen, J. Stiller and B. Sowa 410

Immunohistochemical identification of group specific antigen in avian leukosis virus infected chickens by F. Gilka and J.L. Spencer 322

Intersexes in swine: A problem in descriptive anatomy, by W.G. Halina, D.W. Barrales, G.D. Partlow and K.R.S. Fisher 313

Intestinal carriage of *Campylobacter jejuni* and *Salmonella* by chicken flocks at slaughter, by J.F. Prescott and O.S. Gellner 329

Intrathoracic pressure measurement in cattle: Standardized procedure, by P. Lekeux, R. Hajer and J.J. Breukink 420

Isolation of bovine syncytial virus from lymphocytes recovered from fluids used to flush uterus and oviducts of superovulated cattle, by A.M.P. Bouillant and G.M. Ruckerbauer 332

L

Lung delayed-type hypersensitivity in stressed mice, by F. Blecha and D. Topliff 211

Lung lesions in bovine fetuses aborted by *Brucella abortus*, by A. Lopez, F. Hitos, A. Pérez and R.R. Navarro-Fierro 275

M

Mastocytoma in a cow: A case report, by T.R. Ames and T.P. O'Leary 115

Morphological and hormonal features of an ovine and a caprine intersex, by W.T.K. Bosu and P.K. Basrur 402

N

New method for culture of larvae used in diagnosis of ruminant gastrointestinal strongylosis: Comparison with fecal cultures, by J. Hubert and D. Kerboeuf 63

O

Observations on natural and experimental infections with *Giardia* isolated from cats, by M. Belosevic, G.M. Faubert, R. Guy and J.D. MacLean 241

P

Partial biochemical and serological characterization of exsheathing fluid and somatic extracts of infective larvae and adult females of *Haemonchus contortus*, by M.W. Clarke and J.O.D. Slocombe 166

Pathogenicity of *Haemophilus somnus* in various laboratory animal species, by K.J. Dewey and P.B. Little 27

Patterns of preweaning diarrhea in piglets on a central California ranch, by S. Urcelay, D.W. Hird, E.M. Huffman, K. Parker and T.B. Farver 394

Plasma and milk concentrations of vitamin D_3 and 25-hydroxy vitamin D_3 following intravenous injection of vitamin D_3 or 25-hydroxy vitamin D_3, by M. Hidiroglou and J.E. Knipfel 78

Possible role of stress in the induction of pneumonic pasteurellosis, by L.G. Filion, P.J. Willson, H. Bielefeldt-Ohmann, L.A. Babiuk and R.G. Thomson 268

Prédiction de l'ovulation chez le bovin par dosage rapide de la LH plasmatique et observation de l'ovulation par laparoscopie, par C. Bernard, J.P. Valet, R. Béland et R.D. Lambert 97

Prednisone treatment alters the serum amylase and lipase activities in normal dogs without causing pancreatitis, by C. Fittschen and J.E.C. Bellamy 136

Presence of antibodies to bovine viral diarrhea-mucosal disease virus (Border disease) in sheep and goat flocks in Quebec, by L. Lamontagne and R. Roy 225

Prevalance of rotavirus and coronavirus antigens in the feces of normal cows, by C.F. Crouch and S.D. Acres 340

Production of cattle immunotolerant to bovine viral diarrhea virus, by A.W. McClurkin, E.T. Littledike, R.C. Cutlip, G.H. Frank, M.F. Coria and S.R. Bolin 156

R

Rabies virus in the salivary glands and nasal mucosa of naturally infected skunks, by K.M. Charlton, G.A. Casey and W.A. Webster 338

Relationship between factor XI coagulant and factor XI antigenic activity in cattle, by P.A. Gentry 58

Relative amounts of chondroitin sulfate and hyaluronic acid in synovial fluid from normal and osteochondrotic swine joints, by T. Nakano, F.X. Aherne and J.R. Thomson 434

Reproductive performance in dairy cows following postpartum treatment with gonadotrophin releasing hormone and/or prostaglandin: A field trial, by W.G. Etherington, W.T.K. Bosu, S.W. Martin, J.F. Cote, P.A. Doig and K.E. Leslie 245

A retrospective evalution of postbreeding infusions in dairy cattle, by I.R. Dohoo 6

S

Secondary amyloidosis in a bull with Chediak-Higashi syndrome, by G.L. Burns, K.M. Meyers and D.J. Prieur 113

Serotypes and antibiotic sensitivity of *Moraxella bovis* isolated from an outbreak of infectious bovine keratoconjunctivitis, by C. Gil-Turnes and I.M.B. Albuquerque 428

Serological cross-reactivity of porcine reference antisera to *Mycoplasma hyopneumoniae, M. flocculare, M. hyorhinis* and *M. hyosynoviae* indicated by the enzyme linked immunosorbent assay, complement fixation and indirect hemagglutination tests, by M.J. Freeman, C.H. Armstrong, L.L. Sands-Freeman and M. Lopez-Osuna 202

Serological study of the incidence and prevalence of antibodies to bovine leukemia virus in aged sera, by M.E. Hugh-Jones, P. Moorhouse and C.L. Seger 422

Sexual activity patterns in rams, by D.E. Bernon and J.N.B. Shrestha 42

Somatic cell counts: Associated factors and relationship to production, by E. Salsbert, A.H. Meek and S.W. Martin 251

Somatic cell counts in bovine milk: Relationships to production and clinical episodes of mastitis, by I.R. Dohoo, A.H. Meek and S.W. Martin 130

Spontaneous mesangiocapillary glomerulonephritis in Finn cross lambs from Alberta, by P.F. Frelier, J. Pritchard, D.L. Armstrong, W.T. Nagge and R.M. Lewis 215

Stability of virulent pseudorabies (Aujeszky's disease) viral genome after single passage through nonswine animal species, by E.C. Pirtle 327

Study of the first heart sound spectra in normal anesthetized cats: Possible origins and chest wall influences, by N.L. Fazzalari, J. Mazumdar, D.N. Ghista, D.G. Allen and H. de Bruin 30

Subclinical ketosis: Prevalence and associations with production and disease, by I.R. Dohoo and S.W. Martin 1

Susceptibility of bovine udder quarters colonized with *Corynebacterium bovis* to experimental infection with *Staphylococcus aureus* or *Streptococcus agalactiae* 146

T

Testicular changes observed in boars following experimental inoculation with pseudorabies (Aujeszky's) virus, by L.B. Hall Jr., J.P. Kluge, L.E. Evans, T.L. Clark and H.T. Hill 303

Two epizootics of lymphocytic choriomeningitis virus occurring in laboratory mice despite intensive monitoring programs, by A.L. Smith, F.X. Paturzo, E.P. Gardner, S. Morgenstern, G. Cameron and H. Wadley 335

V

Virus isolation studies in an outbreak of porcine encephalomyelitis, by J.A. Lynch, B.D. Binnington and D.M. Hoover 233
